

FRESCOLORI® bottom

Delivery and servicing surfaces exclusively by trained FRESCOLORI processing specialists, with a long-term guarantee of high quality.

A wall surface paved on a structure, but still preserving its fine radiation - structured, receding, natural.

FRESCOLORI® bottom

Material:	1 CM7 layer 1 CM3 layer
Consumption:	CM7 about 1.2 kg/m ² each layer CM0 about 0.6 kg/m ² each layer
Colour:	freely selectable
Application:	Indoor

Surfaces are prepared and primed.

- Application of the first layer of the Caramor limestone-marble plaster, in grain thickness 7
- Observe the waiting times, with a rest period until the first layer is dry.
- Application of the second layer of the Caramor limestone-marble plaster, in grain thickness 3, in tighter execution in all directions
