

FRESCOLORI® rock

Delivery and servicing surfaces exclusively by trained FRESCOLORI processing specialists, with a long-term guarantee of high quality.

A differently raised, large-area structured surface - powerful and massive. With the natural radiance of a rocky terrain.

FRESCOLORI® rock

Material:	1 CM7 layer Wax
Consumption:	CM7 about 1.5 kg/m ² each layer Wax, about 0.11 kg/m ²
Colour:	freely selectable
Application:	Indoor

Surfaces are prepared and primed.

- Apply the Caramor limestone-marble plaster in grain thickness 7
- Observe the quite short waiting time (touch dry)
- Humidify the surface with a long bristle brush/spray bottle with water, and prevent any running of the water on the surface
- Instant smooth the surface with a trowel, by applying a uniform pressure
- Observe the uniform distribution of the effluent limestone milk
- Smooth the surface with a trowel
- Pulling the material upwards (suction effect)
- Respect the waiting times with a rest period until the next day
- Easily grind corners and edges
- Apply the wax with a trowel
- Apply instant removal of excess wax with rags
- Observe the waiting time of about 3 hours
- Polish the surface with a polishing machine provided with a lambskin covered disc
