

FRESCOLORI® structure Seven L

Delivery and servicing surfaces exclusively by trained FRESCOLORI® processing specialists, with a long-term guarantee of high quality.

A matte open-pore surface, which gains expression through our CARAMOR® in grain strength 7 and by a lively application. Densely compressed areas give the surface its character, more or less.

Material:	1 CM7 layer
Consumption:	CM7 about 1.3 kg/m ² each layer
Colour:	freely selectable
Application:	Indoor

Surfaces are prepared and primed.

- Apply the CARAMOR® limestone-marble plaster in grain thickness 7
- Observe the quite short waiting time (touch dry)
- Humidify the surface with a long bristle brush/spray bottle with water, and prevent any running of the water on the surface
- Instant smooth the surface with a trowel, by applying a uniform pressure
- Observe the uniform distribution of the effluent limestone milk
- Freedom of design: Application of the plaster in wild lively optics, with a moving line imprinting the surface image
