

FRESCOLORI® structure

Delivery and servicing surfaces exclusively by trained FRESCOLORI® processing specialists, with a long-term guarantee of high quality. A wall design with a fine, light structure - smooth and humble. The surface is possible with light to strong smoothing while maintaining the light structure. A puristic charm, with a mineral appeal.

Material:	1 CM7 layer
Consumption:	CM7 about 1.2 kg/m ² each layer
Colour:	freely selectable
Application:	Indoor

Surfaces are prepared and primed.

- Apply the CARAMOR® limestone-marble plaster in grain thickness 7
- Observe the quite short waiting time (touch dry)
- Humidify the surface with a long bristle brush/spray bottle with water, and prevent any running of the water on the surface
- Instant smooth the surface with a trowel, by applying a uniform pressure
- Observe the uniform distribution of the effluent limestone milk
- Design freedom: light or strong smoothing of the surface
