

FRESCOLORI® urban

Delivery and servicing surfaces exclusively by trained FRESCOLORI® processing specialists, with a long-term guarantee of high quality.

A warming embrace: protective, benevolent, very actual. An unobtrusive and yet imposing presence. A character of full confidence, rumbling and proud of its rough flatness.

Material:	1 CM7 layer Wax
Consumption:	CM7 about 1.2 kg/m ² each layer Wax, about 0.08 kg / m ²
Colour:	freely selectable
Application:	Indoor

Surfaces are prepared and primed.

- Application of the first layer of the CARAMOR® limestone-marble plaster, in grain thickness 7
- Observe the quite short waiting time (touch dry)
- Humidify the surface with a long bristle brush/spray bottle with water, and prevent any running of the water on the surface
- Instant smooth the surface with a trowel, by applying a uniform pressure
- Observe the uniform distribution of the exiting limestone milk
- Design freedom: light or strong smoothing of the surface
- On the following day, sand the surface (grain size 180)
- Apply the wax with a trowel
- Polish the surface with a polishing machine, provided with a lambskin covered disc, and sand after a waiting period of approx. 3 hours
